How do you think you can contribute to the project and to your new hosting environment?

Have you considered the possibility of developing a personal project within your EVS experience?

Having read the description, do you already have some ideas that you wish to suggest and maybe put into practice?

What I imagine I could learn during the project

What are your expectations? What do you hope to gain from it (knowledge, skills, experience, ...) ?

EXPERIENCES

Please describe your intercultural experience. Have you ever taken part in activities or projects in an intercultural or international context? What are your experiences abroad? When, for how long and for which reasons did you go abroad?

You will share a small house with other EVS volunteers. You will share the room as well as kitchen and bathroom. You will be responsible for organising your own food shopping and cooking. How do you feel about this? Have you had such experience before?
